

# Appendix

## Title of the Paper

### A Section

Appendix content.

$$y_{t,n} = \mathbb{E}_t^{\mathbb{Q}}[P_{t+1,n-1}] + \nu_t \quad (\text{A.1})$$

Examples of citations only made in appendix: Chang and Li (2017) and (Chang and Li 2017).

### B Section

Appendix content.

$$\begin{aligned} p(x) = & \$1,000x^7 + \$850x^6 + \$1,200x^5 - \$300x^4 \\ & + \$2,150x^3 - \$4,000x^2 - \$100x + \$2,000 \quad (\text{B.1}) \end{aligned}$$
